

2ND EUROPEAN AGROFORESTRY CONFERENCE
„INTEGRATING SCIENCE & POLICY TO PROMOTE
AGROFORESTRY IN PRACTICE“

4TH TO 6TH JUNE 2014
LINDNER CONGRESS HOTEL
IN COTTBUS, GERMANY

www.cebra-ev.de/de/eu-agroforestry-conference.html

organized by
EURAF - European Agroforestry Federation

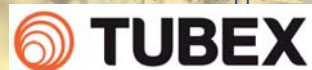

hosted by
Brandenburg University of Technology Cottbus-Senftenberg

Brandenburg
University of Technology
Cottbus - Senftenberg

assistance by
CEBra - Centre for Energy Technology Brandenburg e.V.

With the kind support of:

WEDNESDAY, 4TH OF JUNE 2014

| | |
|----------------------|--|
| 12:00 pm – 01:15 pm | Registration |
| Plenary talks | |
| 01:15 pm - 01:35 pm | Clemens Neumann, Federal Ministry of Food and Agriculture BMEL |
| 01:35 pm - 01:55 pm | Melanie Lamaison, AFAF |
| 01:55 pm - 02:15 pm | Diomy Zamora, University of Minnesota |
| 02:15 pm - 02:35 pm | Patrick Worms, ICRAF |
| 02:35 pm - 02:55 pm | Florian Schöne, NABU |
| 02:55 pm - 04:00 pm | Coffee Break |
| 03:30 pm – 06:30 pm | EURAF General Assembly |
| 07:30 pm – 11:00 pm | Evening Event „Dinner“ Lindner Congress Hotel |

THURSDAY, 5TH OF JUNE 2014

| | |
|---|---|
| 08:00 am - 09:00 am | Registration |
| SESSION I | |
| New insights into carbon, water and nutrient cycling in agroforestry | |
| 09:00 am - 09:20 am | Pasture management under hardwood plantations: legume implantation vs. mineral fertilization (Spain) <i>Gerardo Moreno, Universidad de Extremadura</i> |
| 09:20 am - 09:40 am | Soil carbon sequestration in a Mediterranean agroforestry system (France) <i>Rémi Cardinael, INRA UMR Eco&Sols</i> |
| 09:40 am - 10:00 am | Biophysical Interactions in the Alley Cropping System in Saskatchewan <i>A.A.Kimaro, World Agroforestry Centre</i> |
| 10:00 am - 10:20 am | Carbon Sequestration in a Poplar Agroforestry System in India with Wheat and other Crops at Different Spacing and Row Directions (India, Germany) <i>Georg von Wühlisch, Thünen-Institute of Forest Genetics</i> |

| SESSION II Policy proposals and impacts | |
|--|---|
| 09:00 am - 09:20 am | Agroforestry in the French Green and Blue Corridors policy : towards promotion of trees? (France) <i>Sylvie Guillerme, Laboratoire GEODE</i> |
| 09:20 am - 09:40 am | The role of Rural Development Policy in supporting agroforestry systems in EU (Italy) <i>Andrea Pisaneli, Istituto di Biologia Agroambientale e Forestale Consiglio Nazionale delle Ricerche</i> |
| 09:40 am - 10:00 am | Towards a joint strategy for Iberian oak agroforestry systems: acknowledging the value of dehesas and montados (Portugal, Spain) <i>Fernando Pulido, University of Extremadura</i> |
| 10:00 am - 10:20 am | A methodological framework for quantification and valuation of ecosystem services of tree-based intercropping systems (Canada) <i>Alain Olivier, Université Laval</i> |
| 10:20 am - 11:40 am | Session III and Session IV |
| SESSION III Environmental benefits provided by agroforestry | |
| 10:20 am - 10:40 am | Do agroforestry systems promote a thriving nightlife? Assessing bat activity with an easy to use standardized protocol (Germany) <i>Sebastian Wolfrum, Technical University of Munich</i> |
| 10:40 am - 11:00 am | SCA0PEST, a pesticide-free agroforestry cropping system: ex-ante performance evaluation (France) <i>David Grandgirard, Polytechnique Institute of LaSalle Beauvais</i> |
| 11:00 am - 11:20 am | Impact of black locust hedgerows on wind velocity and wind erosion in Eastern Germany <i>Christian Böhm, Brandenburg University of Technology Cottbus-Senftenberg, Germany</i> |

| | |
|---|--|
| 11:20 am - 11:40 am | Variable-width Buffers to Reduce Sediment Pollution from Potato Production on Steep Slopes: Analysis of Black Brook Watershed using AgBufferBuilder (Canada, USA) <i>Josée Owen, Agriculture and Agri-Food Canada</i> |
| SESSION IV Agroforestry for land reclamation | |
| 10:20 am - 10:40 am | Small ruminants as a fire management tool in a Mediterranean mountain region (Portugal) <i>Esther Fernández-Núñez, Mountain Research Centre CIMO-ESA-IPB</i> |
| 10:40 am - 11:00 am | Celtic Pig production in Chesnut extensive systems in Galicia <i>Rosa Mosquera-Losada, Universidade de Santiago de Compostela</i> |
| 11:00 am - 11:20 am | Alley Cropping – A promising multifunctional form of land use for reclaimed lignite mine sites in Germany <i>Michael Kanzler, Brandenburg University of Technology Cottbus-Senftenberg</i> |
| 11:20 am - 11:40 am | Modeling of agroforestry in Natura 2000 habitat site in Hungary (Hungary, France, Germany) <i>Éva Bozsik, University of Debrecen, Institute of Water and Environmental Management</i> |
| 11:40 am - 01:30 pm | Coffee Break with Poster Session |
| 01:30 pm - 02:30 pm | Lunch |

SESSION V

Innovative solutions for sustainable agriculture with agroforestry

| | |
|---------------------|---|
| 2:30 pm - 02:50 pm | Valuation of grazing resources in agroforestry systems: an example of extensive livestock farms of Spanish Dehesas (Spain) <i>Paula Gaspar, Universidad de Extremadura</i> |
| 2:50 pm - 03:10 pm | Holistic agroforestry system in practice. Just an idea or is there a living model (Portugal) <i>Alfredo Sendim, Agricultural Society of Medium Ash, SA</i> |
| 03:10 pm - 03:35 pm | Joint presentation |
| | Combining hens for egg production and trees for wood chips in an agroforestry system (Germany) <i>Göran Spangenberg, College of Forestry Rottenburg</i> |
| | The Economics of Woodland Eggs in the United Kingdom <i>Paul Burgess, Cranfield University</i> |
| 03:35 pm - 03:40 pm | <i>Discussion of joint presentation</i> |
| 03:40 pm - 04:00 pm | Alley coppice: an innovative land use system - options of system design with experimental evidence (Italy, Germany, Ireland, France, UK) <i>Piero Paris, Institute of Agro-environmental and Forest Biology (IBAF)</i> |
| 04:00 pm - 06:00 pm | International experiences of agroforestry in discussion with German farmers |
| 07:00 pm - 11:00 pm | Evening Event „Barbecue“ Brandenburg University of Technology Cottbus-Senftenberg (Panta Rhei) Konrad-Wachsmann-Allee 17, 03046 Cottbus |

FRIDAY, 6TH OF JUNE 2014

08:00 am - 04:00 pm

Field trip to visit

- large-scale opencast lignite mining operation areas/reclamation areas (with fast growing tree species),
- pilot facility with Alley Cropping / fast growing tree species,
- 6 ha vineyard
- natural succession area
- Lunch near an agricultural area with Alley Cropping
- old agroforestry systems in the Spreewald (FP7 projects)

To facilitate your departure: Participants are invited to join the field trip with their luggage and to leave the bus at the train station in Cottbus at 4:00 pm instead of returning to the conference hotel.

Program may be subject to change
